A go-to favorite for every wrestling fan, WWE 13 delivers the fan-favorite gameplay that made WWEÂ. by the design of the study, but was rather the low number of evaluable subjects. Conclusion {#Sec7} ========== The present study was designed to evaluate the effect of treatment with low-intensity laser therapy for the prevention of postoperative pain, pharticularly in those patients at increased risk for developing postsurgical pain. We could not find any benefit of laser therapy on postoperative pain in this selected group of patients. **Competing interests** The authors declare that they have no competing interests. **Authors' contributions** SB designed the study, prepared the measurements. TW contributed to the coordination of the study. MZ was responsible for the statistical analysis. MW and BP contributed to the design of the study. All authors read and approved the final manuscript. The authors would like to thank the Jena University Hospital for cooperation and excellent organization of the study. Pulmonary thromboembolism in dental practice. A 9-month study of 35 patients who developed symptoms of pulmonary embolism after dental procedures was carried out. The mean age of 6d1f23a050
